## About

Contribute to an organization looking for a high energy tech enthusiast, as a Front End Developer. Motivated, self-taught, ability to learn on the job, and take initiative on tasks as needed. Experienced in a diverse amount of front-end technologies, and learning new things daily. Background in sales/marketing, and customer service.

---

## Education & Training

FreeCodeCamp Front End Development Certificate – 2017

---

## Experience

**FREELANCE, SELF; FLUSHING, NY – 12/2016 – PRESENT**

### PROFESSIONAL PROJECTS

#### **Cityhauling** – [cityhauling.com](http://cityhauling.com)

Worked with a team of developers to launch a web application given a deadline. Uses modern web design principles, such as mobile friendly responsive design, to help a client grow their user base, by giving them the ability to place orders and inquiries online, through a user friendly interface. Built with HTML5, CSS3, BootStrap, JavaScript and with node.js on the server side.

### PERSONAL PROJECTS

#### **Portfolio** – [portfolio.com](http://portfolio.com)

Built a project to showcase all previous work, on one web application. Applies modern mobile friendly, and responsive design elements, as well as many user friendly elements to make transversing the webpage convenient. Built with HTML5, CSS3, BootStrap, JavaScript, jQuery, and node.js on the server side.

**SALES CONSULTANT, NISSAN/INFINITI OF MANHATTAN; MANHATTAN, NY – 11/2015 - 12/2016**

**SALES CONSULTANT, MANHATTAN AUTOMOBILE COMPANY; MANHATTAN, NY – 10/2013 - 11/2015**

**SALES CONSULTANT, HILLSIDE HONDA; JAMAICA, NY – 10/2012 – 10/2013**

Worked alongside large teams of colleagues, sharing various sales ideas, and techniques. Responsible for greeting all new clients, managing a CRM of past, and potential clients, and handling all objections and sales figures with clients.
